After his disastrous relationship with Jungle Jane, our chubby hero, Master Higgins finally finds true happiness with his new love, Tina. Things couldn't have been going any better for Master Higgins as he sailed across the beautiful tropical waters with his beautiful, tropical wife. But little did he know that trouble loomed just over the horizon.

For suddenly, Master Higgins' luxury raft was struck by a vicious hurricane. Tossed about by the raging storm, the raft was torn to pieces, casting Master Higgins and Tina into the churning waters.

Lying senseless like a beached whale on the sandy shores of a deserted island, Master Higgins awakes to find that he's lost his memory. Though he could recollect nothing of his past, he knew deep down inside that there was a certain, special someone in his life -- someone that he must find at all cost.

With a determination of a warrior Master Higgins sets out to explore the island, in search of a clue that could lead him to his lost past.

While Master Higgins was out exploring the island, Tina had also survived the storm. She had landed on Waku-Waku Island and -- wouldn't you know it -- she had also lost her memory.

Helpless and alone, Tina was taken in by the good king of Waku-Waku while she

recovered her health. What else can you expect, but for the king to fall in love with the beautiful Tina. Soon the two were to be married and on the day of the glorious wedding, Master Higgins just happens to find his way to Waku-Waku Island on his handmade raft.

And how can this adventure story be complete without a terrible villain. So into the picture comes a beastly buzzard which swoops down to kidnap Tina while she was about to exchange wedding vows with the king. By coincidence -- and we're stretching it a bit here -- Master Higgins happens to pass in front of the castle when Tina is being kidnapped. He hears her scream for help and the voice strikes a familiar chord somewhere deep in his memory. But this thought quickly leaves him and Master Higgins is left with an empty feeling in his heart.

Grasping at this brief flashback, Master Higgins enters the castle to find the owner of the somewhat familiar voice. The king sees this stranger in his castle and recognizes him as the renowned hero, Master Higgins. The king explains to Master Higgins how his wife-to-be had been kidnapped and asks him to rescue this fair maiden -- another must in an adventure. So Master Higgins unknowingly sets off on a journey to find not only the maiden, but who he really is.
